

## QUICK START for Glidercom Raptor Bluetooth Set.

1. Make sure everything is charged adequately. Plug the radio adapter dongle into the radio.
2. Press and hold the "Multi Button" on the radio adapter dongle just long enough for the indicator light to flash. Release immediately.
3. Press and hold the "Multi Button" on the PTT just long enough for the indicator light to flash. Release immediately.
4. Press and hold the top helmet button for 8 seconds, then release.
5. The helmet module will automatically open a link with the radio adapter dongle. The set is ready for use.
6. Turn off the PTT and dongle with a press and hold of the "Multi Button" until the indicator light is on steady.
7. Turn off the helmet module by holding the top button for 8 seconds.
